## Participate Online Face-to-Face at Business and Scientific Events, Save Money on Flights and Hotels.

All online face – to – face events are accumulated in one file. Later they will be prescribed to the corresponding countries.

Our local moderators will ensure your online, face-to-face presence at events, using a notebook and conferencing cam through Office-365 at [www.worldvipnet.com](http://www.worldvipnet.com). You will be able to speak (negotiate) face-to-face or your question will be transmitted to the speakers or other participants by the moderator, following the event's regulations. Our moderators will arrange online face-to-face appointments with the onsite participants. You can conclude with us a retainer agreement (optional). It often happens not foreseen activities which are not planned by the Network – translation, interpretation, urgent online, face-to-face meetings, negotiations, or online face-to-face consulting with business/scientific experts.
